What is Secure Returns?

Secure Returns is a Secure Client Portal - accessed directly by you and your clients from your website. Your clients and staff can upload and download confidential files from your portal 24/7 using any computer with internet access. Secure Returns puts you in control through our extensive reporting to create the perfect system for your firm.

What does Secure Returns provide?

- Portal: Manage the flow of information through your firm!
- Access: Through your own website!
- Files: Upload and download any sort of file!
- Backup: All files are encrypted & backed up in an external location!
- Automation: Clients & staff are automatically notified!
- Reporting: Detailed reports to keep you informed!

SECURE Secure your client's highly confidential information
